

# **CREMON F&B**

# **COMPANY INTRODUCTION**

---

Create a new dream as global food culture company

# We create our dream!

With our value, 'Quality without compromise', we have been developing the best quality food items in the world. We import, export and distribute as an expertized leader in the food industry.

By developing our own products with quality assured partners in other countries and Korea, we supply all kinds of food products to every channel, wholesalers, retailers and individual customers.

We happily accept any challenge occurring to introduce our products for various customers in the world. To meet more customers, we export to other countries from Korea directly, and mediate the export from our overseas partners to 3<sup>rd</sup> country, with saving middle cost and securing price competitiveness. For our customers, we find ways to provide the best products all the time.

We will keep creating our dreams, and hope you can join on our way.

# HISTORY OF CREMON

1995
